EXPERIENCE

Software Engineer

Amdocs – Airtel Project

04/2025 – Present Noida, Uttar Pradesh

- Working on the Airtel project, automating manual processes to reduce repetitive effort and make day-to-day operations easier for the team.
- Built dashboards to track and present operational data in a clear view, helping teams monitor work and take faster decisions.
- Converted time-consuming workflows into automated steps and self-serve reports used by the project team.
- Collaborated with stakeholders to identify process bottlenecks and deliver practical tools that simplify production work.

PROJECTS

Portfolio Website

- Designed and built a fully responsive portfolio website, ensuring 100% mobile compatibility and reducing layout inconsistencies across devices.
- Improved site performance by 30%, optimising images, implementing lazy loading, and minifying CSS/JavaScript files.
- Created a blog section to share technical knowledge, increasing visitor engagement by 40%.
- Developed an automated contact form using JavaScript, increasing user inquiries by 25%.

ShopFlip (E-commerce Website)

- Developed a full-stack e-commerce platform with a catalogue of 100+ products, improving user navigation.
- Enhanced product management efficiency, reducing manual update time by 60% through CRUD functionalities.
- Optimized search performance by 40% with database indexing and query enhancements.
- Technologies: MERN Stack, Tailwind CSS.

Attendance Management System

- Implemented a role-based authentication system for 500+ users, ensuring secure and efficient access control.
- Automated attendance tracking, reducing manual record-keeping efforts by 20+ hours per month.
- Implemented a real-time attendance dashboard, increasing data accuracy by 95% and improving student engagement.
- Refactored database queries, cutting execution time by 50% and optimizing server performance.
- Added data export functionality, allowing teachers to generate reports in PDF format.
- Technologies: Java, Spring Boot, Hibernate, React.js, Bootstrap, MySQL.

EDUCATION

Post Graduation Diploma in Advanced Computing (PGDAC)

Center for Development of Advanced Computing (CDAC)

08/2024 – 02/2025 New Delhi

Bachelor of Technology – Computer Engineering

I.K. Gujral Punjab Technical University (PTU)

2020 – 2024 Jalandhar, Punjab

Senior Secondary Education

City Children's Academy

2017 – 2019 Chhibramau, Uttar Pradesh

SKILLS

Frontend

HTML

CSS

JavaScript

Bootstrap

React.js

Backend

Node.js

Express.js

Java

Spring Boot

Hibernate

Database

MySQL

MongoDB

Version Control

Git

GitHub
